

Solar Charging and Outrigger Package

COMPONENT OPTIONS

PROVIDES ENHANCED STABILITY AND LONGER BATTERY LIFE

The SQ2 Portable Traffic Signal System is available with a solar charging option to increase battery run time. The solar charging option includes a cart outrigger package which adds additional stabilization and expedites the cart leveling process. The outrigger package is also available as a stand-alone option.

The SQ2 Outrigger Package is recommended for use when deploying the SQ2 System on uneven surfaces or during dangerous storm conditions.

The SQ2 Solar Charging Package is recommended for use when signals will be deployed for long periods of time or during colder weather.
