## Work Zone Luminaire

PORTABLE TRAFFIC SIGNAL SYSTEMS

### **MAKES NIGHT / LOW VISIBILITY OPERATIONS SAFER**

The Work Zone Luminaire increases safety within the work zone by illuminating the portable traffic signal trailer and associated work area during periods of low visibility. A photocell sensor automatically activates the light at dusk, and deactivates it at dawn for convenient, automatic operation.

## How it Works

The 8000+ Lumen Work Zone Luminaire is designed for the most demanding environments. The die-cast aluminum housing provides a durable housing for the LEDs, while the rotating mounting bracket allows the light to be positioned as needed. This compact flood light is the perfect solution to increase visibility for motorists and improve safety in your work zone.

- 8,000+ Lumen rating
- 75,000+ hours operating life
- 4,000k color temperature rating
- Dimensions: 19.6" diameter x 28.49" depth x 7.7" height
- 108 LEDs
- Rugged die-cast aluminum housing allows for corrosion resistance and long life
- Works in conjunction with photocell to turn on and off automatically
- Operating temperature: -40°F - 122°F
