

SQ2[®] Upgrades

SOLAR & OUTRIGGER PACKAGE

The addition of a 150-watt solar panel significantly increases run times on the SQ2 system, while outrigger jacks provide extra stabilization on uneven surfaces.

OPEN TRANSPORT TRAILER

Provides storage and convenient portability of an entire set of SQ2 Portable Traffic Signals, as well as stabilizer jacks solar panels, and other work zone equipment.

ENCLOSED TRANSPORT TRAILER

Provides added shelter and security for your SQ2 Signal System. Four carts, 16 stabilizer jacks, and four solar panels can be stored inside this 6'x12' trailer with lockable ramp and door.

WIRELESS REMOTE

The most convenient method of manual signal control! The built-in vibration function works as a confirmation of each button press, and the signals can be switched back to automatic mode with just one tap.

PILOT CAR

Allows a Pilot Car driver or flagger to operate a Horizon Signal System remotely via a handheld transmitter. The simple 4-key remote makes controlling traffic in pilot car applications easy.

ARM SYSTEM

Digitally manage and monitor your PTS fleet with access to signal timing data and event logs, and also configure email and SMS text message alerts to be delivered based on signal activity.
